Announcing New Fact Sheets

Supporting Under-Represented Groups: Success, Challenges, Strategies

Community Literacy of Ontario (CLO) has created *three new fact sheets* outlining **success**, **challenges**, and **strategies** for providing enhanced support for under-represented groups in the labor force.

In 2021, the Ontario Ministry of Labour, Immigration, Training and Skills Development prioritized five areas for the Literacy and Basic Skills (LBS) program. One area is the increased support for under-represented groups in the labor force, including Indigenous persons, newcomers to Canada, persons with disabilities, racialized persons, women, and youth.

CLO has responded to this need by creating three factsheets *Supporting Under-Represented Groups* fact sheets can be freely downloaded from our website:
